

Ti-Max Ti-SG20 SERIES FROM NSK
SURGICAL HANDPIECES

NSK

Ti-SG20L / Ti-SG20

solid titanium surgical handpieces

Optic Titanium handpieces
are perfectly designed to
meet strict surgical
requirements.

Powerful Partners®

NSK Ti-SG20 Series Provide High Precision and Safe Treatment Procedures.

Ti-SG20L (Optic) and Ti-SG20 (Non-Optic) are 20 : 1 speed reduction handpieces for surgical applications. The selection of solid titanium for durable lightweight body construction provides a biocompatible handpiece body, a positive comfortable grip and the highest level of hygiene. NSK's recognised high quality reduction gear system enables direct transfer of power between the motor and the drill. The integrated single core Cellular Glass Optic assures clear vision and the optimum overall efficiency for accurate clinical procedures.

Features

- 20 : 1 Reduction
- Solid titanium Body*
- Cellular Glass Optics (Ti-SG20L)
- Ultra Push Chuck
- Dust-Proof Mechanism

Clear Vision without Any Shadow

NSK Cellular Glass Optic system transmits 25,000 LUX of clear bright illumination directly to the clinical treatment site. Visibility is improved and operator stress reduced, especially during prolonged procedures. Light intensity will not deteriorate even after repeated autoclaving.

Double Water Injection

Double water injection maximises the cooling effect. Central water injection (injected from inside the bur) and external water injection ensure that water is continuously delivered to the treatment area, as required. Both injection nozzles are fully autoclavable.
